PROGRAMMATIC METHODS OF ACCESSING CARC DATABASE IMAGES

Important: CARC does not hold copyright for many images visible through the CARC databases, so can offer no licence for use. Use is entirely at your own risk, must be for non-commercial purposes, and the source should be acknowledged in any public use.

High resolution images are stored in JTIP and IIP image formats with copyright watermarks, which are not downloadable programmatically. You can download the "full screen" size images (approx. 800 x 800 pixels).

Links to the images are stored in the XML data in the XDBData / Record / Image-Record / Filename tags e.g.:

To access the full screen image put

<https://www.carc.ox.ac.uk/Vases/SPIFF/>

in front of the **Filename** in the XML data and [cc001001.jpe](#) after the filename

e.g. as per the highlighted example above:

DOWNLOADING THE FULL DATABASE

To download the full database, the simplest method is to use the Faceted Search page:

<https://www.carc.ox.ac.uk/XDB/ASP/searchOpen.asp>

The **download** link allows you to export the results of the current search. If you do not enter any search criteria the full dataset is shown – the number of records in the top right.
